Join the Kudos Badges Team!
ISW are offering a 12 week paid internship

ISW’s Summer Internship Program
Over the past 11 years, ISW has run a summer internship program available to University of Tasmania students. The internship is a 12 week paid program open to students studying a Bachelor of Computing, or similar IT related degree. The program is designed to provide students with invaluable experience working in one of Australia’s leading IT workplaces, on a real-world IT project.

What is Kudos Badges?
Kudos Badges is a flexible gamification engine for IBM Connections. By providing achievements and rewards, Kudos leverages game theory to engage users, measure success and drive performance and adoption. Initially developed last Summer, it was released in January 2012 at the worldwide IBM conference, Lotusphere. Since then, Kudos has been sold worldwide. With a global business partner network, and over 500,000 licences sold or currently being piloted, this is the fastest growing and most exciting product to ever come out of ISW.

The Kudos team are focussing on bringing a whole range of new functionality to the product this Summer. We will be adding mobile capabilities, as well as something so secret we can’t talk about it here!

Who are ISW looking for?
ISW are offering the opportunity for two highly motivated, intelligent students interested in pursuing a career in IT. Students will work as members of the Kudos Badges team and will require a strong understanding of software development. As such, this project will only be open to students completing their degree in 2012, or moving into their final year in 2013.

What’s in it for you?
ISW’s Summer internship program provides students with real-world on the job experience that will expose you to leading edge web technologies. Being a paid position, it is a great way to earn some extra cash over Summer, whilst enjoying the relaxed atmosphere and creative freedom of the ISW workplace. Impress us enough and you may go on to a full time position – the lead Kudos developers came out of the internship program in 2010 and 2011!

Essential Skills
• Excellent written and verbal communication skills
• Be able to work as a member of a team
• Strong problem solving skills
• Strong Java and JavaScript programming skills

Highly Desired Skills
• Experience with mobile development
• Experience with web development

How to Apply?
Simply email a cover letter and CV to internship@isw.com.au

This position is based in Hobart. You must be able to work from our Hobart office and be available for interviews in Hobart when required.
